THE new charter which Mayor SINKING OF THE ST. LUKE. Loague pronounced "the best in the world," but which the APPEAL bas condemned from the first, has produced some of its legitimate fruits in the proceedings of the general council yesterday. We have only space to call the attention of our readers to the one fact that that body after voting down the message of the mayor vetoing the resolution calling for a joint session to elect the police and fire commissioners, "as a matter of prudence and caution," proceeded to elect or re-elect the commissioners. As to the rest of the proceedings we leave our readers to draw their own inand think, with the council, that the commissioners should be indepartments. As things are now, our

The Bridge Over the Holston Almost Totally Destroyed - Loss Between Forty-Pive and Fitty Thousas & Dollars An Old Kelic Broken.

Yesterday afternoon, between three and four o'clock, a heavy rain storm passed over our city, and, by its work of destruction, damaged the county of Knox at least forty-five thousand doilars in sweeping from its pillars the

the bridge, or rather a large por-tion of it, was soon floating down the stream in a body, and we are informed by eye witnesses that a man could almost have crossed the river on it. Great excitement prevailed for a

time owing to the rumor which prevailed that two wagons were on the bridge when it gave way, and that the drivers and teams were hurled in the river. But this rumor proved to be incorrect. The probable loss is estimated to be from forty-five thousand to fifty thousand dollars. The Charleston rail-road bridge was slightly injured, the roof of the draw-span being torn off. The damage can be easily repaired. A NOTABLE RELIC OF THE PAST CEN-

The Offer to General Butler.

New York Tribune, 29th.] The statement that the President proposed to the cabinet to make Mr. Butler his attorney-general gives no one any surprise. There is of course a glimmer of satisfaction at the fact-if it be true as reported-that two members of the cabinet protested against it, and not content with protesting, threatened to re-eign if the proposition of the President should be carried out. But the simple fact that such a thing should, under the circumstances-familiar to every intelligent citizen—be deliberately proposed, is full of unpleasant significance. We have upon decency. > Judge Frazier's Charge. Nashville Union and American On account of the flagrant outrage

against the law perpetrated last Friday night—a night which will be memorable in the annals of Nashville-extraordinary interest attaches to the present term of the criminal court. Especially will the eye of the public be upon the grand jury, to whom Judge Frazier yesterday read a very lengthy written charge. A representative of the Union and American was present, to catch whatever might be said with reference to the mobbing of Reed. When the judge had read to the jury the portion of his charge relating to the State law against ku-klux, he said he was reminded just there of the terrible violation of law in the streets of Nashville a few nights before. He said the "men who did it were guilty of murder in the highest degree. If a man, or clan of men, should take the law in his or their own hands, and put to death a condemned culprit on the way to the gallows, it would be in the most approved legal sense, murder in the first degree. The offense was aggravated to happen in a place like Nashtille. It was the duty of every man to set his face to bring the perpetrators to justice, and thus give the law a strong arm. If in utter contempt of the law and the courts mobs should be permitted to deal out punishment to criminals, the law had as well be abolished. ter-State educational convention the Mo society could live where such conmost important initial educational meeting that has ever been neld in the south. | barism and heathenism. New York Herald.) A Nasuville negro shot a policeman dead. The negro was arrested and imprisoned. The people assembled, and in their anger broke open the jail and took the negro to the bridge to hang him. A rope was put around his neck and the poor wretch suspended from the bridge. But the rope broke, the negro fell over ninety feet upon the rocks beneath, and rolled into the waters. I'wo shots were fired at him, and his body sauk. We do not remember to have read for a long time of an act more cowardly and brutal than this killing. The negro was in custody. There was no chance, no pretext that he would escape. The laws of Tennessee are clear and supreme, and in a city like Nashville-a southern city controlled by the whites -there was no fear that an indulgent popular opinion would arrest the operation of the law. But the man was a negro, and the old brutal feeling of the whiles toward the negro was allowed to bring dishonor upon justice in Tennessee and upon the American name.

Adams's Independence. New York Evening Post. It was a remarkable pretense of some of the speakers—we refer particularly to Mr. Adams-that it is possible for a third party to be organized under the title of Independent," that shall alternately favor one or the other of the two great parties which always contend for the ipremacy. The assumption that a ard party can long exist in such a relation to the other two is contrary to all political experience. It must inevita-bly yield to bad control, or modify one f the two so as to merge in it, or else dwindle into insignificance. In any event its mission and career are bound to be temporary. Independence of part-isan control on the part of the individual voter is one thing, but the permanent organization of a body of voters to be bid for like goods at an auction sale is something very different.
